

Datasheet for #sb25895 DN

Recommendations:

Please read the User Manual and have a look at the FAQ at
<https://www.alpeslasers.ch/resources/#faq>

WARNING: Operating the laser with longer pulses, higher repetition rate, higher voltage or higher current than specified in this document may cause damage. It will result in loss of warranty, unless agreed upon with Alpes Lasers!

WARNING: Beware of the polarity of the laser. This laser has to be powered with negative bias and positive bias on the specific zones drawn below.
